OBJECTIVE

As a MERN stack and PHP backend developer, I have a strong foundation in developing web applications using MongoDB, Express, React, and Node.js also php Laravel.
I am proficient in JavaScript, HTML, CSS, and have experience with version control tools such as Git.
I am also well-versed in developing RESTful APIs, integrating third-party APIs, and implementing security measures to ensure the protection of user data.
My goal is to become Complete Full stack **Web** Developer associated with a company where I can utilize my skills and gain further experience while enhancing the company's productivity and reputation.

SKILLS

- React.js (Next.js) & React Native (Android)
- Node.js (Express.js)
- Php & OOPs
- Laravel 9
- Python (Django)
- MongoDB and MySQL
- JavaScript ES6
- HTML, CSS (Bootstrap & Tailwind)
- WordPress, Drupal (CMS)

INTERESTS

- New programming languages
- Web development trends
- User experience design
- Front-end technologies
- Back-end proficiency
- Version control systems

LANGUAGE

- ✔ English
- ✔ Urdu

PROJECTS

↪ PhP Modules for Clients on Drupal 7 & 9
I develop custom PHP modules to meet the specific needs of clients.

↪ E-commerce (MERN)
Developed a feature-rich E-commerce website using MERN stack with responsive design, secure payments, robust admin panel, and 'Add to Cart' functionality.

↪ Expenses Management System
"Expense Management system tracks, categorizes, and generates spending reports, aiding users in controlling their expenses efficiently."

↪ Complete Blog Project
Created a full-stack blog project on MERN stack with author dashboard, post management, likes, and comments functionality.

↪ Whatsapp Reminder
WhatsApp Reminder with the twilio API is a **MERN** project that allows to set reminders for tasks, allowing users to set reminders for tasks and receive notifications through WhatsApp.

↪ Todo on MERN stack
A simple Todo application on MERN stack is a project that allows users to create, view, update, and delete tasks that they need to complete.

↪ E-commerce (Laravel 9)
Developed a feature-rich E-commerce website using Laravel 9 php framework with responsive design, secure payments, robust admin panel, and 'Add to Cart' functionality.

EXPERIENCE

↪ FigOver   Apr-23 - Present
Backend Php Developer Job
In my role at FigOver, I serve as a back-end PHP developer specializing in creating PHP modules for the Drupal CMS platform. My responsibilities include designing and implementing code to enhance the functionality and features of the CMS.

↪ DigiTecUltra   Oct-22 - Mar-23
MERN Stack Developer Intern
Developed full-stack web applications using MongoDB, ExpressJS, ReactJS, and NodeJS during a 6 months internship. Collaborated with team members to build scalable and responsive web solutions.

↪ New Sir Syed Public Model Secondary School   Sep-2019 - Sep-2022
Teacher
I'm Computer science and Mathematics teacher of matriculation classes in "New Sirsyed Public Model School".

EDUCATION

↪ Mehran Degree College Rawat (Affiliate with University of Gujarat)   2018
Bsc Computer Science

↪ Islamabad Model School Rawat (Federal Board)   2016
ICS Computer Science

↪ Govt. High School Jhatta Hathial (Rawalpindi Board)   2014
Matric Computer Science

CODE

↪ Stack Overflow
Stack Overflow is a question and answer website for programmers, developers, and other technology professionals.

↪ Github & w3school
Github is a web-based platform for hosting and managing code repositories.
W3Schools is an online platform that provides tutorials and resources on web development.
